ACKNOWLEDGEMENTS

Thanks to the authors for their research and compilation of the "Socio-Economic Profile of the California Wetfish Industry" by Pomeroy, Hunter and Los Huertos, and the "Economic Overview..." by Hackett.

Thanks to the scientists whose websites provided graphics and information on ENSO and PDO cycles, the basis for "Cycles of Abundance." (References to scientific papers and links to websites may be found in the Suggested Reading section.)

Thanks and appreciation to California's wetfish fishermen and processors for their cooperation in providing information for this socio-economic profile and economic overview, and also for making possible the photographs and footage showcased on this CD.

Special thanks to round-haul fishermen Frank Vuoso, F/V St. George II from San Pedro, and Vince Aliotti, F/V El Dorado from Monterey, for hosting our still and video cameras onboard their fishing boats.
